
Durham Park Water Supply Corporation (DPWSC) Announcement

22 February 2021

DPWSC Customers,

This memorandum serves as the formal announcement that DPWSC has entered into a lease agreement with Heritage Broadband LLC to provide upgraded internet services. This will enable DPWSC to help achieve its objectives for improved monitoring/connectivity between its three water tanks/wells located in Durham Park and in Thousand Oaks. In addition, it provides the backbone for our future initiatives to implement wireless water meter reading.

We look forward to this business relationship which will also provide enhanced internet services to our area and benefit the entire community.

Rich Anaya

DPWSC Board President
